

EVOREI

Kashmir

Fabric shaver

USB
charging

For various
textiles

Onepress
use

3 stainless
steel blades

One press use

Just press one button and...done! The shaver is very easy to use and the high efficiency of the built-in motor combined with 3 stainless steel blades make quick work of any bits of lint.

Easy charging

To charge the battery built into the Evorei Kashmir fabric shaver, just connect it to power using the USB cable provided with the device. A fully charged shaver can work for up to an hour.

For various textiles

Evorei Kashmir is made with universal use in mind. The device can easily get rid of lint on sweaters and fabrics of different weaves, surface and thickness.

Efficient

Evorei Kashmir can freshen up cotton, wool, polyesters and other, more delicate fabrics. The most important parts of this device are the blades behind a metal mesh that you slide across your clothes. The mesh is 46 mm in diameter and has perforations of different sizes, making lint removal more efficient.

Easy to use

Evorei Kashmir easily fits into your hands, while the big shaving surface makes it quick and easy to use.

Compact contained

Evorei Kashmir comes with a practical compartment for lint and other shaved off bits of clothing. Just lightly twist the casing to open and empty it.

Three stainless steel blades

Our product comes with three stainless steel blades that quickly shave off any lint and layers of old fabric, making your clothes look as good as new!

A lifestyle photograph featuring a gold-colored electric shaver, a notebook, glasses, a cup of coffee, and a knitted sweater on a fur rug. The shaver is positioned in the upper right, with the brand name 'EVOREI' visible on its side. The notebook is open, showing a blank page and a pen resting on it. The glasses are placed on the notebook. The cup of coffee is in the top left corner. The sweater is a thick, cream-colored knit with a green and white patterned section. The entire scene is set on a white, fluffy fur rug.

Design

The device was made with not just functionality, but also attractive visual design in mind. The shaver is a perfect fit for a lady's purse and can be easily mistaken for an elegant bottle of perfume.

Gift

What is a perfect gift like? Pretty and functional, most of all. Evorei Kashmir is both, making it a gift that your family and friends can appreciate.

Modern

A true 21st century device! Standard fabric shavers tend to look bland. Kashmir breaks away from that stereotype, giving you a device you can be proud of. The end of lint is nigh - it's Kashmir time!

Portable and mobile

The Evorei Kashmir fabric shaver is small, fitting inside most purses, letting you always take it with you. Additionally, it comes with a special bag for keeping the product in.

For every occasion

The elegant Evorei Kashmir fabric shaver gets rid of lint not just from sweaters, but also business suits and more delicate fabrics like satin or...kashmir!
