

EVOREI

# Boost 3

Family water flosser

Complete  
cleaning

7 tips

Magnetic  
handle

20-100 PSI

A woman with blonde hair is in the foreground, smiling and using a black water flosser. In the background, a man is brushing his teeth. The scene is brightly lit, suggesting a bathroom or a clean, modern space.

# Complete Oral hygiene

The toothbrush-floss duo is not enough to maintain proper oral hygiene. Dental plaque, tartar, bits of food and bacterial buildup between your teeth are a serious health risk. That's why it is vital that you properly clean hard to reach spots in your mouth. Only a dental water flosser can provide you with a precise method of getting rid of dental plaque and reaching the gaps between your teeth. Meet Evorei Boost 3.

# For the whole family

The Evorei Boost 3 water flosser provides efficient oral care for the whole family. It's a perfect supplement for your daily brushing. A big water container (600 ml), water pressure regulation, a power button on the handle and 7 different tips provide you with optimal dental cleaning.

# Professional protection

Brushing your teeth doesn't get rid of bits of food or bacteria from the gaps between your teeth. The area you can clean with traditional dental floss is limited to the upper gum line. That's why dentists recommend using jets of water for optimal oral hygiene. Evorei Boost 3 is a water flosser made with providing you and your family with complex dental hygiene in mind.

Specialized  
tips

Boost 3

EVOREI

# Magnetic handle

The handle of the device automatically attaches itself to the base of the water flosser, which makes Boost 3 very easy to use.

# Gums in great condition

Healthy gums lead to healthy teeth and a beautiful smile. Not taking care of your gums properly may cause serious damage to your teeth or even cause some of them to fall out. That's why you should pay special attention to your gums when cleaning your mouth. By using the Boost 3 water flosser as a part of your daily hygiene, you can help prevent many oral diseases.

# 5w1 hygiene

The Evorei Boost 3 water flosser has 7 specialized tips for cleaning.

**Tongue  
cleaner  
tip**

*small spade that  
removes sticky  
residue from your  
tongue and helps  
to get rid of bad  
breath*

**Periodontal  
pocket  
tip**

*narrow rubber tip  
that lets you  
carefully direct  
the water stream  
to clean your gum  
pockets*

**Dental  
plaque  
tip**

*a tip with a  
bundle of thin  
fibers that get rid  
of bits of food  
and dental plaque  
stuck between  
your teeth and  
braces. The tip is  
designed to make  
cleaning the  
surface around  
your braces  
easier.*

**Ortodontic  
brush  
tip**

*a plastic tube  
with fibers on one  
end, for precise  
flossing around  
dental implants  
and dental  
bridges.*

**Standard  
pressure  
tip**

*for everyday  
cleaning of hard to  
reach places, like  
gaps between your  
teeth or gum  
pockets.*

# Non-slip suction cupc

The Evorei Boost 3 water flosser is a perfect solution for your whole family. You don't need to worry about the battery running out - the device is plugged into a power source. The casing of the water flosser has 4 non-slip legs with suction cups that stabilize the device.

Use the Evorei Boost 3 water flosser if you want to ensure proper oral hygiene, your gums bleed when flossing, you have teeth that tightly press against each other, you wear dental braces or if you have partial dental prosthetics. The magnetic handle of the Evorei Boost 3 water flosser lets you set the water pressure from one of the 10 settings and the end with the tip can be rotated in a 360° range. You can adjust the direction and power of the water stream to your needs and preferences.

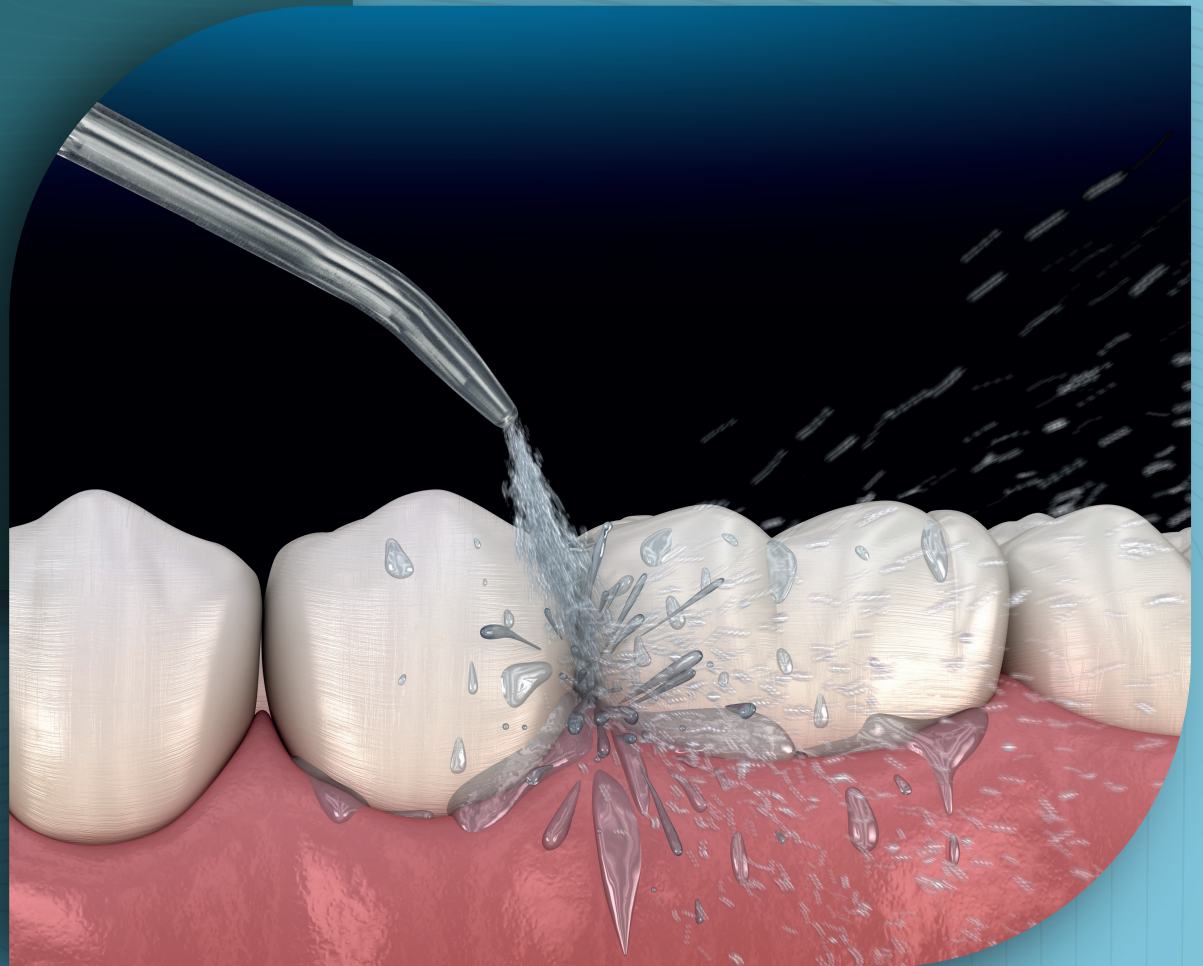

# Protection

## from periodontitis

Evorei Boost 3 flushes out bits of food and dental plaque that are left in gum pockets after brushing your teeth, while also cleaning the surface around dental braces, implants and bridges. It provides a maximum level of hygiene, and more importantly - protects you from bacterial buildup. Evorei Boost 3 prevents gum inflammation, which can lead to periodontitis.

# Compartment under the lid

Rodzinny irygator Evorei Boost 3 jest doskonałym urządzeniem stacjonarnym. Duża pojemność zbiornika na wodę (600 ml), magnetyczny uchwyt oraz specjalny schowek na końcówki zapewniają wygodę użytkowania dla całej rodziny. Pod pokrywą urządzenia przechowasz końcówki, dzięki czemu zawsze będziesz je mieć pod ręką.

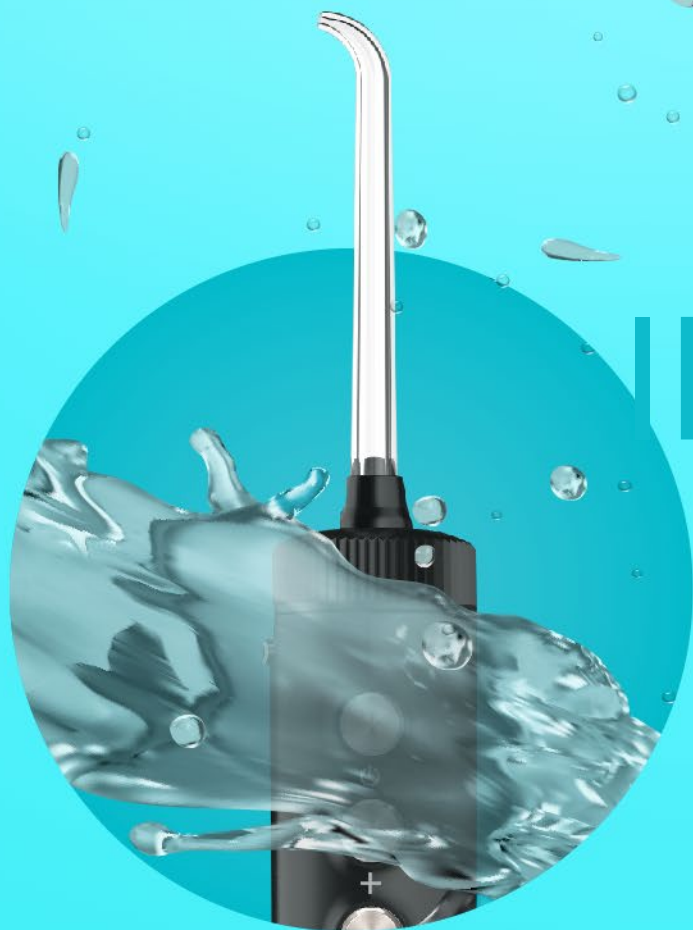

# Big water tank

The Evorei Boost 3 water flosser was made with use by the whole family in mind - that's why the device is so functional and comes with a big water tank. A 600 ml water tank makes a standard washing cycle longer, letting you floss your teeth more efficiently. The water tank has an easy to read scale and is not built into the device, making it easy to clean and fill up.

The water flosser is waterproof, making it easy to use in your bathroom or other humid rooms

# IPX7

# IPX4

You can use the water flosser's handle without worrying, as it has a waterproof rating of IPX4.
